Fleetio

# Seamlessly Integrate Samsara with Fleetio for Full Maintenance Visibility

Connect two modern, user-friendly fleet management solutions to automate fleet maintenance management and workflows, saving you countless hours of manual work.

The screenshot displays the Fleetio interface. On the left, a vehicle profile for a "2014 Audi A6 Diesel" is shown, with a "Flat Tire" issue (#338) marked as "Resolved". The activity log shows the issue was created 6 days ago and resolved 4 days ago. On the right, a "Diagnostic Trouble Code (DTC) Alerts" table is visible, listing various codes and their statuses. A dropdown menu is open for the P0303 code, showing options to "Create an Issue" and "Ignore Alert".

Code	Description	Status	Actions
P0303	Cylinder 3 Misfire Detected	Resolved	ⓘ Create an Issue 🗑 Ignore Alert
P0442	Evaporative Emission (EVAP) System Small Leak Detected	Resolved	
P0534	Air Conditioner Refrigerant Charge Loss	Open	⚙
P0217	Engine Overtemp Condition	Pending	⚙

## Take maintenance tracking to the next level

Fleetio's robust maintenance management features for both in-house and outsourced maintenance compliment real-time vehicle data from your Samsara devices.

## Fine-tune vehicle inspections

Automate failure workflows to take action on vehicle issues immediately, keeping your vehicles compliant, safe and fully operational when you need them most.

## Customize data transfer

Use the Fleetio and Samsara APIs to further customize data sharing and workflow management between systems.

# Samsara Integration Features

---

## Resolve failed inspection items with maintenance workflows

Automatically create issues from failed inspection items from your Samsara DVIRs. Quickly assign service work for a speedy repair and resolution.

## Manage Diagnostic Trouble Codes (DTC) & engine faults.

Don't rely on drivers to tell you if their "check engine" light is on! Get an email notification when new fault codes are detected by your Samsara devices, and create an Issue in Fleetio from a fault code with one click (or choose to ignore it).

## See current vehicle location in Fleetio.

Easily see a vehicle's current location, driving status and more right on the vehicle profile page in the Fleetio user interface.

## Navigate seamlessly between systems.

Maximize productivity by navigating to your Samsara Map and Device Views with one click from Fleetio.

## Get automatic odometer readings

Odometer readings automatically sync every day at midnight, keeping preventative maintenance reminders timely and accurate.
